## Labor Leader Endorses War Savings Plan

Tom Moore, president of the Trades and Labor Congress of Canada, is today, by reason of his position, the recognized leader of organized labor in the Dominion. He is also a man of international standing. The advantages of the War Saving plan are obvious to him, as the following statement shows:—

"During this reconstruction period the question of eliminating unemployment is one of the vital problems, and the government, by the carrying on of essential public works, etc., can materially help and thus stabilize the labor market. In order to do this money must be forthcoming.

"The pre-war methods of financing were found unequal to the requirements of war time, and regulations imposed by other countries made it necessary to secure money direct from the people of Canada. The sale of Victory Bonds was instituted and the marvellous success achieved proved the value of the policy of placing the purchase of these within the reach of the greater number by introducing the low denomination of fifty dollars.

"Even greater success can be achieved by still further reducing the minimum amount which can be subscribed and Canada has now decided, through its War Thrift Stamp Saving scheme to offer opportunities by which not only the men and women, but the children of the country, can help to provide the money which is still urgently needed to carry on 'The humble "quarter" is at last being mobilized into the country's service. All should lend their aid and make the aggregate sum secured so large as to prove for all time that the workers of Canada can finance their own undertakings."

## Old Folks' Coughs, Catarrh, Bronchitis, Quickly Cured

This Tells of a Method That Cures Without Using Drugs

Elderly people take cold easily. Unlike young folks, they recover slowly. That is, they are liable to pass middle life die of pneumonia.

Cough Syrup seldom does much good because they upset digestion. Any doctor knows that a much more effective treatment is "CATARRH-ZONE," which treats and soothes the irritated surfaces of the throat.

In using Catarrh-Zone you do not take medicine into the stomach—you simply breathe into the throat, nose and lungs rich, pure balsamic vapor, so full of healing power that colds, catarrh and bronchitis disappear almost instantly.

The germ-killing balsamic vapor mingles with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are affected with rich, pure medicinal essence, whereas with a syrup the affected parts could not be reached and harm would result through burning the mucous membrane with drugs.

Catarrh-Zone inhaler in your pocket or purse enables you to stop a cold with the first appearance. Price costs \$1.00 and supplies treatment for two months, small size, 50¢ trial size, 25¢. All stores, druggists, or The Catarrh-Zone Co., Kingston, Canada.

## Canada's Advantage

Has Greatest Available Unturned Agricultural Soil in World Says U.S. Editor

C. W. Barron, owner of the Boston News Bureau, in a recent article draws a parallel between the financial position of Canada as compared with the United States. The article, entitled "Canada's Advantages," is a response to a Christmas greeting received by him from C. R. Homer, in which the latter pointed out that since the armistice was signed the Canadian stock market has been active and advancing. "Stocks are being purchased at rising prices," he said, "and we are wondering why such a cloud of depression should be settling down on your market, especially as the United States is the one country in the world that has come out of this conflict away ahead in every possible respect."

Mr. Barron, in his article, says in part: "My response is that while Canada has still great transportation, racial and political problems, alas the greatest available untended agricultural soil in the world, and she has these advantages over the United States."

1. She has a centralized financial system of older date than that of the United States, more centralized in the federal reserve.

2. She has confidence in her financial system and the United States can receive in home bonds and foreign capital.

3. She has made the first real transcontinental railroad system and answered ocean transportation there. She has not therefore, the burden of having railroads, the cost of building, maintenance and running four times the price in other countries.

4. She has not the problem of settling the finances, the peace, the form of government and the social structure of the whole world and making liberal first contributions for experimental ideas.

The war, which at first frightened financial Canada, has really given her financial independence. She believed she was in financial distress when she discovered at the outbreak of the war that she had more than 300 millions outside the country.

Mr. Barron then speaks of Canada's fine performance in the matter of war loans, and says:

It is a wonder that Canada has confidence within her own borders and appreciates her financial independence, her home markets and home securities.

Canada has not yet reached the stage where it is considered politically right to rob the widow and the orphan of the family.

Canada has a railroad system that stretches from ocean to ocean, and with railroad-owned ships, helps the world so that Canadian transportation may follow the sun around the earth.

In the United States before the war we were not only cutting steamboats away from railroads, but its membership railroad systems. Now we begin to see that the solution of transportation problem may lie in following the example of Canada, and creating transcontinental shipping lines on both the Atlantic and the Pacific. Canada has a vast country that invites individual and pioneer enterprises in transportation.

Then, referring to the railroad and shipping uncertainty in the United States, he asks:

Is not the transportation and the shipping situation of Canada as compared with the present uncertainty in the United States rather enviable? With the Bolshevik program that has prevailed and is prevailing in the United States land transportation, is the prospect for government ocean transportation pleasing? Is the fall eventually to be paid both for land and ocean transportation as well as for the war, by the few instead of the many?

Today in the United States the proposal is to restrict immigration to confiscate capital, to destroy individual initiative in railroad construction, to prosecute the developers of shore machinery, to make cotton again king over wheat and corn and to prosecute as profiteers the "Chicago packers" who can not find two cents profit on the dollar of their gross business. The danger of the concentration of power in the cities with no protection to capital or labor.

Canada has not this dangerous concentration, has the honest pride and has protection and freedom for both capital and labor.

Mr. Barron concluded with a postscript as follows:

Now don't let your Canadian friends sell American stocks short on the title of how much better off Canada is, for American securities are dirt cheap—cheaper than ever before.

Although the sun is not yet shining upon American prosperity the dawn is breaking for a new day in America's industrial life—the day of re-energized peace activity.—Montreal Daily Star.

## This Drawing is from a Photograph

— That's why it means so much

It is from an actual photograph of Anna Case of the Metropolitan Opera singing in direct comparison with her own voice on the New Edison.

"But what's remarkable about this?" you ask. The amazing fact is that no human ear can distinguish the artist from the instrument; so perfect is the Re-Creation. This is what we call the "tone test." And it proves the truth of the Edison Company's claims about

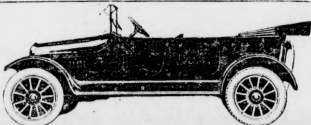

## The NEW EDISON

"The Phonograph with a Soul"

It proves that the instrument does re-create, not merely imitate. Hundreds of these tone tests have been conducted. More than 2,000,000 people have attended them. And not one could say when it was the artist he heard and when the instrument. With the lights lowered to hide the singer's lips the audience was completely baffled.

With our store for a demonstration of the marvelous New Edison or have one sent to your home. No obligation, of course.

## A Fine Car—Low Priced

WE could build a Gray-Dort car to sell at a lower price. But we don't believe you want such a car—a car whose only merit is cheapness.

We believe you would rather pay a fair price for a good light car. And in buying the Gray-Dort you get the finest light car that engineering skill and high-priced materials can build.

More than that—you get this fine car at a really low price. Efficiency in the factory and big production make it possible.

We have built the Gray-Dort for the man who wants a car of sensible price—a car economical in upkeep; but a car of extra performance free from trouble, comfortable and convenient, equipped for care-free driving, and unquestionably handsome.

The touring car is \$1,245; the Gray-Dort Special—the car with added refinement and extra equipment, is \$1,375 extra; there are also the coupe and limousine. All prices f.o.b. Clathane, all prices subject to change without notice.

### NEW HABIT FOR ALBERTA

Getting the first \$1,000,000 is said by Carnegie, Rockefeller and others fairly remote from the poorhouse, to be the most difficult financial operation on record. Many people find the saving of the first dollar a fairly difficult process. A way has been found to make it easy, painless and practically imperceptible. A modest little Thrift Stamp can be purchased for 25 cents, and will in a book in which to paste it is given free. As old quarters pop up, they are converted into more

of these stamps and the first thing one has a book of sixteen filled. Then this is changed for a Four Dollar War Savings Stamp, which is pasted in another book. This \$4.00 stamp draws interest at four and one-half per cent, compound half-yearly. Buy another Thrift Stamp and start all over. Soon a second \$4.00 stamp is bought, and in a remarkably short space of time a \$40.00 book is full. Put this away, for on January 1st, 1924, it will be worth \$50.00. Meanwhile, it is negotiable as gold if one urgently needs money.

"Thrift and war stamps should be the nucleus of a new national movement that will have a potent influence in easing the difficulties of reconstruction and in converting Canadians into a saving people," said Major-General A. D. McFay to joint meeting of the Canadian and Rotary clubs and the Board of Trade, of Calgary. He urged universal participation in the Thrift campaign, emphasizing that "Thrift is now a duty; soon it will become a necessity."

Malcolm Sterenson, brother-in-law of Ray Henderson, wishes us to state that the item in last week's issue of this paper was incorrect in several particulars. He informs us that Ray resided at Camp Lewis, Washington, in 1918, and received an honorable discharge from there some time in the fall, and that he also received release papers from Ottawa. Mr. Sterenson also states that Ray is now in Idaho and will shortly return to Alberta, when he will be glad to show the above documents. There are many here who will be pleased to see them.

The Anniversary supper and entertainment at the Methodist church last Tuesday was a great success. Over three hundred sat down to the supper and the waiters and waitresses were kept busy for nearly three hours. It was like pre-war days when everyone went for a real good time, and had it. The provisions provided by the ladies of the church were excellent and the program given in the church after the supper by local talent was much appreciated. It seemed good to realize that the war was over and that now these good means for enjoying. Financially it was a success, although there was no particular attention given to the financial side of it. The aim was rather to bring the people together for a real social time and to get better acquainted, and in this the ladies succeeded beyond their expectations.

### Mulligan Fraser

An interesting wedding took place at the Presbyterian Manse of Calgary on March 2nd, when Miss Myrtle Fraser, of Claresholm, became the bride of Mr. Newton Mulligan, of Nohelford. The ceremony was performed by the Rev. Alexander Esler, pastor of Grace Presbyterian church.

Miss Edith Camp, of Nanton, Mr. Arnold Fraser, of Claresholm, and Mr. and Mrs. L. R. Miller of Calgary were witnesses to the marriage. After the ceremony a wedding dinner was served at the home of Mrs. Miller.

Mr. and Mrs. Mulligan will reside in Calgary. The bride's many friends wish her much happiness in her married life.

### RESPECTING INVESTMENTS

To the Average Man—Some one is bound to get your spare dollars, to say nothing of your spare 25-cent pieces. The question is—who will it be? Will it be some one with a "gold brick," or will it be the Government which, in return, will pay you good interest? That's the question.

You know that in the making of investments you have made bad mistakes. You have put hard earned money into things that never will and never could give you a return. More than this, you have lost your principal. You can't afford to do this any longer.

You had better let the Government have your spare dollars, it will even accept 25 cents from you. In buying War Savings Stamps you let it have the use of your money for five years, for which it pays 4½ per cent, compounded half-yearly.

**Letter to Mary**

Dear Sister Mary:—

You and I reached a most momentous conclusion the other evening. Our children are growing up—very fast it seems to us—and our eldest, Florence, has just turned her 18th birthday. Naturally, at that age she wishes to entertain her friends, and desires to take a very proper pride in welcoming them to a worthy home. Then too the others, Bobby, now 16 years, Fred, Mary and Beth, are getting to an age of realization of just what a home means.

As Tom has said, a home is not a business and money making proposition, but pretty nearly the opposite. For the sake of Florence we cannot afford to wait another month, but we will let the contract within the next 10 days. We have nearly completed our plans, and gone very thoroughly into every item with the local lumberman, whom Tom knows very well. Can't you imagine my excitement in the coming realization of my dream of a real home.

Will be over soon to show you the delightful pantry and linen closet planned.

Your loving sister,  
FLORENCE.

## German Commission Leaves For Berlin

GENEVE.—Swiss newspapers print a Berlin dispatch stating that owing to the sudden suspension of armistice negotiations the German commission had left Spa for Berlin.

The reason for the reported suspension is not given.

General Ludendorff and Field Marshal von Hindenburg are expected in Berlin.

Negotiations between allied and German financial, economic and military missions have been in progress at Spa for some time, but there has been no intimation from allied sources that anything in the nature of a crisis had developed there, or the absence of definite information it would seem probable that the meeting, if they have been broken as reported, have been suspended only temporarily.

On February 14 Marshal Foch presented to the German armistice commission at Spa the provisions for an extension of the armistice between the allies and Germany. These provisions he received from the supreme council of the peace conference. They were accepted by the German after being referred to the national assembly at Weimar, and were signed by the German delegates on the evening of February 16.

### Man Who Found Nickel

Sulphur, Ont.—News has reached here of the discovery of nickel by Mich., of James Stobie, the man who first found a nickel ore body in Sulphur district and the discoverer of Mount Nickel and the Hessens. He was a wealthy and took up farming after his prospecting experience. Of late years his life had been given over to the advancement of religion, to which he gave liberally.

## Many Opponents to League of Nations

Washington.—President Wilson told members of the congressional foreign relations committee that unless the United States entered the league of nations, the league would fail and chaos and anarchy beyond description would result in Europe. Views of Republican members opposing the league's constitution, as reported to the peace conference, apparently were not changed by the conference.

The president was said to have stated that it was necessary that the United States stand to the support of the Czech-Slovak, the Jugoslav, Poland and other weak and struggling peoples made free as a result of the great war.

Discussion of the constitution as presented to the peace conference was said to have been quite general and the president was questioned closely, especially by the House, of Connecticut, Republican Lodge and Senator Knox of Pennsylvania, former secretary of state, took very little part.

### Reds Seize Ballot Boxes

London.—After the elections for the town council had been held in Düsseldorf, says a Cologne dispatch, bands of armed Spartacists compelled the officials to surrender the ballot boxes at the point of revolvers, and made bonfires in the streets of the ballots and all the election documents. The Spartacists wound up with a little pronounced shooting, resulting in several casualties. The dispatch adds that a telegram of protest was sent to the ministry of home affairs on behalf of the Centre party, which is said to have received a majority of the votes cast. Another general strike in Düsseldorf is threatened, the advice state.

### Anti-War Man Offers Portfolio

London.—A delayed dispatch received from Munich, says the Die Müchler, former director of Krupp, has been offered the portfolio of foreign secretary in the new Bavarian government. He is reported to have replied that he would study the situation before accepting.

At Munich, despite his position as head of the big industrial works, disapproved of Germany's conduct of the war. His demissionary because of the war, he was forced to flee to Switzerland.

The two United States divisions who fought in the last under Marshal Haig were composed of men of the purest British stock.

## Hunger Typhus in Moscow

Famine Is Made Worse by Lack of Medicine

Paris.—The Soviet government in Moscow is now regulating the number of baths each person is permitted to take in the various public and private bathing places, and for this purpose has divided the population into three categories, according to French refugees arriving here from Russia.

Those in the first category are allowed to bathe twice a month, it is said, and those in the second category once a month, while those in the third category never.

The cost of food in Russia is declared to be prohibitive when food can be obtained and a famine, made worse by lack of medicine, was raging in Moscow when the French left. The Bolsheviks call it the "hunger typhus," and it claims from two thousand to three thousand victims daily.

Premier Lenin, the refugees say, is not affected by the food problem. Lenin had plenty to eat, and his bill for fruit and vegetables in a recent month amounted to 400,000 rubles.

### Guards Return to London

General Fielding Welcomed Battalion On Behalf of King

London.—The second battalion of the Grenadier Guards received an enthusiastic welcome on their return to London from Germany. Although no honor of arrival had been arranged, and the hour of arrival was uncertain, immense crowds assembled at St. James station, which was thronged, large numbers being congregated outside.

The only indication that something unusual was happening was the presence of massed bands which played "See, the Conquering Hero Comes," as the men left their train. General Fielding, commandant of the London division, welcomed the battalion on behalf of the King and then the guards began a triumphal march across London to Chelsea barracks.

### Submarines for Canada

Two Submarines Given to Dominion and Six to Australia

London.—Replying to Lieut-Col. Borgeino, Right Hon. Walter Long, first lord of the admiralty, stated in the house of commons that the imperial government had offered the Australian government six modern destroyers and six modern submarines to Canada. Requests made by other dominions, said Mr. Long, would receive the most sympathetic consideration. Mr. Long emphasized the fact that the Australian navy was in an advanced stage of development.

Col. Borgeino asked if the two submarines given to Canada were the same two which had been taken from her, or were they additional.

Mr. Long replied: "I really cannot say."

### Italian Women Ask Rights

Rome.—The national council of Italian women has written to Premier Orlando demanding legal equality of sexes and woman suffrage in parliament and municipal elections. The letter pointed out that Italian women gave their service during the war and asked why their position should be inferior to that of the women of other countries.

### Floated Across North Pole

New York.—Admiral received from Alaska state that Storkef Storckman and a party of five explorers who boarded a floating ice pack in the Polar Basin last year in an effort to float across the North Pole had landed safely November 2. No details were given.

## Official Report of Estonian Atrocities

### Trouble in Saxony

Berlin.—Spartan and radical Socialists have launched a movement to overthrow the existing government in Saxony, where the newly elected diet was to assemble. A general strike has been proclaimed and railway communication with Halle, one of the principal junction points in Saxony has been broken. The Spartacists are reported to have taken possession of Plauen and other industrial centers. "Independent Saxony" in Leipzig has issued a manifesto demanding the retirement of the Weimar government, declaring that it is "an impediment to Socialism and liberation of the proletariat." The Independent Socialist party in Saxony has recently issued a proclamation of a Soviet republic in Saxony.

### Poland Officially Recognized

Warsaw.—M. Trompski, marshal of the Diet, read to the Diet a telegram from Stephen Pichon, the French foreign minister, which announced that France had decided to recognize Poland as an independent sovereign state. The members of the Diet with the exception of a few socialists, stood while the message was being read, and cheered it.

### HON. MRS. A. R. M. RAMSAY (Princess Patricia)

### Wedding in Westminster Abbey

Public Greatly Interested in Social Event

London.—Princess Patricia of Connaught and Commander Alexander R. M. Ramsay, R.N., were married at Westminster Abbey, February 23rd. No other social event since the beginning of the war has caused such public interest. Crowds assembled early along the route over which the princess drove with her father, the Duke of Connaught, from St. James Palace to Westminster Abbey.

The ceremony was performed by the Archbishop of Canterbury, assisted by other noted ecclesiastics in the presence of King George and Queen Mary, and a great assemblage of the members of the royal family, distinguished officials of the British and foreign governments, and friends and intimates of the bride and groom.

In the fashionable audience in the great nave of the abbey seats were given for a number of the many friends of the princess among the plain people, and also representatives of charitable organizations in which she was interested.

The bride entered the abbey by the west door. Her gown was of white brocade pattern over silver lace, the latter being caught up with silver laces' knots. She carried a bouquet presented by the "Princess Pats" Canadian organization and tied with the regimental colors.

The procession was led by a choir singing "Praise My Soul, the King of Heavens." The gentlemen usher followed, and then came Princess Patricia, with her father. They were followed by the Earl of Marbott, eldest son of the Duchess of Life, and the Hon. Simon-Ramsay, as pages, bearing "Princesses' train." Then came Lady Jean Ramsay with Princess Ingrid of Sweden, Lady R. Ramsay with Lady May Cambridge, Canadian origin and tied with the regimental colors.

The bride was given away by her father. During the service the choir sang the 67th Psalm, the hymn, "O God, the King of Glory," and the anthem, "Who is like unto Thee, O Lord."

### Ex-Kaiser Thinks

Huns Will Repeat

Says There Are Still Good Patriots in Germany

London.—Germany will soon repeat having overthrown the non-Brexit," is the statement attributed to the former German emperor by the Mail's Copenhagen correspondent, reporting a recent conversation the royal exile had with Count von Brockdorff-Rantzau, the German foreign minister.

"All that is happening in Germany goes to my heart," continued the ex-king monarch. "I did not wish to see Germany as it is now. There are still good patriots in Germany who will not allow her to become a slave state."

Count von Brockdorff-Rantzau, according to the correspondent, went to Amersfoort two months ago and delivered to the former emperor a considerable sum of money. The count stated at Amersfoort for a short period, accompanied by his wife and a group of his friends. He was a great admirer of the emperor.

"I am glad to hear," the emperor said, "that you are still a patriot and a man of honor. I am glad to hear that you are still a patriot and a man of honor. I am glad to hear that you are still a patriot and a man of honor."

## Criticize Plan to Destroy Foe Ships

London.—The Daily Chronicle reports in a Paris dispatch that the suggestion that the German fleet be sunk in the Atlantic has excited a storm of criticism in the French press. The French think that their government has a particular right to a number of these vessels by way of compensation for their naval losses.

Major David Davies, chairman of the league of nations union, according to the Chronicle's dispatch, suggests that the German fleet should be handed over to the league of nations as the nucleus of an international police force which could be relied upon to enforce the decisions of the league. Doubtless, says Major Davies, such an international naval force would have to be built up step by step. It is unnecessary the whole fleet should be commisioned at the same time. This a long period would elapse before it could be a really existing national fleet but as confidence in the league of nations develops and as the financial strength of competing armaments becomes more actively felt the tendency would be to transfer sea power more and more to the international fleet.

Regarding the question of a base for this international force, Major Davies says that the future status of Constantinople would soon become an important question at the peace conference. Was it not possible that the straits and the Bosphorus could be internationalized and that Constantinople should become one of the first bases of the international police force?

Major Davies adds that proposals were recently made to abolish the submarine as a weapon of naval warfare. If the league of nations had the means of securing its abandonment by individual nations. The disposal of the German navy offers opportunities for the league of nations to really and enduring it partially with the means of exercising its authority and maintaining processes of law against aggression and violence.

## The Woman Who Suffers.

Who does not know women and young girls who are continually in tears? Who always see this dark side? Who have frequent fits of melancholy without any apparent cause? This intelligent physician will know that it is some derangement of the complicated and delicate feminine organs. The young girl suffers bodily and mentally in silence. There is undue weariness, unexpected pain, unreasonable tears and fits of temper.

Doctor Pierce's Favorite Prescription exerts a wonderful power over woman's delicate organism. It is an invigorating tonic and is prescribed for the peculiar weaknesses, irregularities and painful derangements of woman.

Caution, every young doctor frequently treats his women patients for biliousness, nervousness, dyspepsia, liver or kidney troubles, when the real sickness lies in the organs distinctly feminine, and no help can come till they are made perfectly strong by the use of Dr. Pierce's Favorite Prescription, in tablet or liquid form.

Female Out.—"Dr. Pierce's medicine has been a wonderful help to me and I recommend it to all women. It is a tonic and a purifier. It has cured me of a great many ailments. My mother thought she could never live. I was a girl and I grew weak; doctors said I would have to have an operation. I suffered at times until agony. My mother started giving me Dr. Pierce's Favorite Prescription, and it finally cured me of all my troubles. After I married I used it again. My children are all healthy and strong. This medicine did wonders for me, saved me much suffering, and I can highly recommend it to weak women of like nature. I am a family."—Mrs. A. W. Robb, 115 Tremont St.

## Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not have it. I thought of Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief. I have since used it and have entirely cured me. All women have female trouble of one kind or another. Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering and two doctors decided I lost all my strength so I had to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from all my troubles so I can now do my housework without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

## To Solve Canada's Employment Problem

EVERYONE in Canada should understand just what the Government is doing to solve the unemployment problems that may arise through the demobilization of our fighting forces.

### (1) Employment Offices.

So that everyone—male or female, soldier or civilian—can get quickly such jobs as are available the Government is co-operating with the Provinces in establishing a chain of Public Employment Offices. Employers are being urged to make use of these offices to secure any help they need. Farmers, for example, who need hired men should apply to the nearest office. There will be a Public Employment Office in every town of 10,000 people—and wherever the need for one exists. There will be 60 different offices in all—one-half are already in operation.

### (2) Employment Opportunities.

The war held up much work that will now be carried on at once. Public works, shipbuilding, roadbuilding, railway work—construction of bridges, improvement of road-bed, making of new equipment—these will provide new opportunities for employment. In addition, the Government has sent a Trade Mission overseas to secure for Canada a share in the business of providing materials and products required for reconstruction work in Europe. It has also set aside the large sum of

\$25,000,000 to be loaned through the Provinces to encourage the building of workmen's houses. This will mean much new work in the spring.

### (3) Land and Loans for Soldiers.

To help soldiers become farmers the Government has developed a programme that includes the providing of land, the granting of loans, and the training and supervision of those inexperienced in farming. At present, the soldier is granted, free, in addition to his ordinary homestead right, one quarter-section of Dominion lands. He also receives a loan up to the maximum of \$2,500.

These original plans are now being broadened. If Parliament passes the new proposals during this session, the Soldier Settlement Board will be able to buy suitable land and re-sell it to the soldier at cost.

Land up to the value of \$5,000 may be bought by this plan—the money to be repaid in 20 years. The low interest rate of 5 per cent. will be charged. These new proposals will also permit the Soldier Settlement Board to loan the soldier-farmer up to \$2,500 for purchasing equipment, etc., in addition to \$3,000 loan on his farm.

## The Beautiful 1919 Models are Here

UTILITY as exemplified in the McLaughlin 1919 models is the result of an unwavering fidelity to accepted engineering ideals. No radical changes mark the new '19 Series which are refined, developed and improved rather than redesigned. On the two chassis—Master Sixes and Light Sixes—are mounted various body designs in open and closed models comprising a car for every need.
